Summary

Full Stack Developer with experience in designing and developing end-to-end web applications using modern frontend and backend technologies. Skilled in building responsive user interfaces, developing robust server-side applications, integrating databases and APIs, and delivering scalable, secure, and reliable software through clean code, efficient problem-solving, and continuous learning.

Skills

Programming Languages: Java,Html,Css,JavaScript,SQL
Frameworks: Spring Boot
Databases: MySQL, MongoDB
Developer Tools: Git, GitHub
Core Concepts: REST APIs, JDBC, OOP, Collections, Multithreading

Education

SSC **2012 – 2022**
Sri Sai Chaitanya High School,Tripuranthakam *Percentage: 84 / 100*
Intermediate **2022 – 2024**
Viswa Sai Junior College,Vinukonda *Percentage: 96 / 100*
Bachelor of Technology (B.Tech) **Graduated: 2028**
Vasireddy Venkatadri Institute of Technology *CGPA: 8.7 / 10*

Projects

AI-Powered Spam Detection System — Python, Machine Learning, Streamlit, Scikit-learn 2026

- Developed an AI-powered Spam Detection System using Python, Machine Learning, and Scikit-learn to classify SMS messages as spam or legitimate (ham).
- Implemented a text classification pipeline with data preprocessing and trained machine learning models for automated spam detection.
- Built an interactive Streamlit web application featuring real-time predictions, confidence estimates, sample messages, and message analysis.
- valuated model performance using Accuracy, Precision, Recall, F1-Score, ROC-AUC, and Confusion Matrix to assess classification effectiveness and identify prediction errors.

ShopKart – Full-Stack E-Commerce Web Application 2026

- Developed a responsive e-commerce platform inspired by Flipkart using React.js, Node.js, Express.js, and MongoDB, enabling seamless product browsing, searching, filtering, and purchasing.
- Implemented secure user authentication, role-based authorization, shopping cart, wishlist, product management, and order tracking using RESTful APIs and JWT.
- Integrated the Razorpay Payment Gateway with server-side payment verification, secure order processing, and payment status management.
- Designed MongoDB schemas and backend APIs for inventory management, product reviews, coupon validation, and order processing, ensuring data consistency and secure transactions.

Certifications

- **Introduction to HTML** – HTML5, Semantic HTML, Forms, and Web Page Structure.
- **CSS Fundamentals** – CSS3, Responsive Web Design, Flexbox, and Grid.
- **JavaScript Fundamentals** – JavaScript, DOM Manipulation, Event Handling, and Programming Concepts.
- **Infosys Certified Professional** – Infosys; include the exact certification specialization.
